Swiss Life — Recruitment

Re: Data Analyst Benelux — Hoofddorp

Tilburg, 7 September 2026

I applied for the Data Analyst Benelux role. My professional year was spent turning operational data into decisions at Netvix: a forecasting model planning headcount 500+ days ahead, KPI definitions stakeholders stopped arguing about, and reporting used on the floor daily.

Insurance runs on exactly the discipline I practice: calibrated estimates, honest uncertainty, and numbers that survive audit. My BSc in Economics and MSc in Data Science are the formal half; my portfolio (franciscorau.com — all live) is the proof half.

Available immediately, based in Tilburg. Happy to walk through any of my systems in a first conversation.
